

**The Capital is a very busy place when the
Legislature is in session**

**The inside of the Capital Building is as
impressive as the outside.**

Jeff Forrester meets with Brittney Grigg of Chief of Staff for Representative Edmund Kuempel

George Sanchez, SATAMB's Legislative Chair meets with Hannah Lipps, Legislative Assistant to Brian McCall

Jeff Forrester meets with State Representative Leo Berman

An our worse fears were confirmed, we found snakes in the legislature.

While at Lobby in Austin we saw and met with three members of the Sweetwater Jaycee's. Sweetwater has the Worlds Largest Rattlesnake Roundup in the world. It is held in Sweetwater the second weekend in March, so you haven't missed the 2007 event.

I have a new respect for the power of sales. I can hear this pitch now. *"We would like to bring our box of rattlesnakes up to the Capital and let them loose in the middle of the Annex so that the thousands of people that pass by each day can learn more about the Texas Diamondback"* With that kind of sales ability my biggest concern is the Jaycees will get into the mortgage business.
